FRENCH REPORT GERMAN DRIVE BROKEN DOWN

French Estimate 60,000
Nazis Participated In
Offensive

HELD BACK BY GUNS Paris Reports Heavy Losses Suffered By Enemy In Advance

By Henry C. Cassidy

PARIS, Oct. 17.—(AP)—A smashing German offensive along a 30-mile sector east of the Saar river has broken down, the French reported today, in the face of a German Maginot line fire.

At least six German divisions were known to have taken part in the offensive, which started on Oct. 14, one of which carried the bulk of the French territory in the face of the Maginot line.

Allied guns which were trained on the advance of the German tanks at least 100 miles.

On the night of the 15th, the French general staff announced after explaining a German offensive, that the German drive had been broken back to prepared defensive positions in the face of the attacking German tanks.

Military advance said the German army was a full division of more than 100,000 men, and that the German tanks were in the lead. The French general staff said that the German drive had been broken back to prepared defensive positions in the face of the attacking German tanks.

European Warfare Stepped Up To Faster Pace

Juror Thinks Probe Embarrassed Byrne

SAFETY COUNCIL TALKS SHARPLY OF PEDESTRIAN

Asserts Walker Has Be-
come Spoiled And Pam-
pered Child

ATLANTIC CITY, N. J., Oct. 17.—(AP)—The National Safety Council today turned its attention to the pedestrian, and asserted that he has become a spoiled and pampered child.

The manager of the city department of safety, General William E. Gubner, gave a description of the average pedestrian, and said something drastic would have to be done to make pedestrians pay attention to traffic lights and stop jay-walking.

General Gubner said municipalities should see that a cross walk is plainly marked, that a green light stays on long enough for pedestrians to cross, and that a red light is not on for three seconds in the middle of the street.

The National Safety Council's committee on tests for automobiles reported a test of a standard automobile, and found that it was not safe to drive a car if its blood contents as much as 15 hundredths of one percent of alcohol.

The committee reported the test was "knocking the props from under the law in respect to the auto."

Drinks have been standard all over the country, they said.

Sidney DeArmas On Stand Again For Redirect Examination

NEW ORLEANS, Oct. 17.—(AP)—Sidney DeArmas, one of the discharged members of the Orleans parish grand jury, was placed on the stand today for redirect examination in the open court hearing on grand jury charges of lack of cooperation against District Attorney Charles A. Byrne.

Counsel said H. Mose Steeg, Jr., an attorney for seven members of the jury who asked the replacement of Byrne as legal advisor to the grand jury, would seek to bring out in the testimony the identity of two persons DeArmas testified, telephoned him, advising against grand jury action in its dual office-holding investigation.

Yesterday DeArmas, the only witness examined, told the calls. Edgar H. Powell, the other member of the jury, discharged by Judge George P. Platt for attempting to read a petition against Byrne in open court, was also expected to testify today.

At the start of questioning Steeg sought to clear up what the seven jurors meant by the term "associates" of Byrne in their petition and DeArmas said the word "associates" did not directly refer to Assistant District Attorney Conrad Meyer or other office assistants.

It meant friends, acquaintances who might have a personal relation.

CHEST RECEIVES INCREASED GIFT FROM BIG DONOR

First Contribution Of
Financial Campaign An-
nounced By Propit

C. Ashton Propit, general chairman of the second annual financial campaign of the Twin City Community Chest, was nothing short of enthused Tuesday.

The chest had received its first check from a large donor and it was twice as large as the firm's last year's contribution.

The check was in response to personal letters sent out to large donors Saturday by Mr. Propit. The letters set forth the decision of the big gifts rating committee in each instance and the amount it expected to be contributed.

Each donor was rated 50 per cent or more higher this year in view of the expanded scope of the chest's work in accepting affiliation of the Twin Cities Parent-Teacher council, covering its child welfare work in Monroe and West Monroe, and the West Monroe Welfare association, an organization devoting itself to charity.

What pleased Mr. Propit more than the check, however, was the letter accompanying it and the spirit of the concern in not waiting for a solicitor to call on it. The letter praised the Community Chest for its work in financing charitable and character-building agencies in the Twin Cities.

And it went on to say that the firm, because of the increased need for welfare work here, was only too glad to increase its contribution 50 per cent over last year.

The chest campaign starts October 23 and continues through November 4. In announcing the prompt response to his letters, Mr. Propit stressed the

TRUCKMAN KILLED NEAR LAKE CHARLES

LAKE CHARLES, La., Oct. 17.—(AP)—Archie Burris, 21, Houston, Tex., truck driver, was killed instantly shortly before midnight last night when his truck overturned in a ditch about three miles west of Vinton, La., on highway 80.

He was en route to New Iberia, La., with a load of five-inch oil well casing.

The accident was discovered a short while after it occurred by Lambert Breaux and Louis Roy, both residents of Vinton, but Burris was dead when he was pulled from beneath his truck.

A portion of the pipe had pierced the cab, breaking his neck.

Highway Patrolman E. H. Reeves and Constable V. L. Lake, who investigated the accident, said that Burris apparently attempted to dodge cattle on the highway and lost control of his truck, which overturned on the left side of the road.

He was employed by the J. D. Miller Trucking company of Houston, the owner of which was his brother-in-law. His body was taken to an Orange, Tex., funeral home pending further arrangements.

GERMANS MAKE ANOTHER RAID UPON BRITAIN

English Training Ship
Damaged By Nazi Air
Attackers

FIGHTING ON FRONT French Fall Back On Ger- man Soil As Hitler's Troops Strike

(By Associated Press)

A German air raid on Britain's Scapa Flow naval base and intensified fighting on the western front today quickened the pace of European warfare.

The 21,250-ton Iron Duke, a former battleship which had been converted into a training ship, was damaged by German raiders, the second attack on a British naval base in two days.

Sixteen men were killed and 45 injured yesterday in a raid on the Irish coast.

Lord Chatfield, defense coordination minister, describing the Scapa Flow raid, disclosed a German submarine was responsible for sinking the battleship Royal Oak also at Scapa Flow last Saturday. Britain lost 156 men in that raid.

A quick succession of torpedoes sank the Royal Oak. Lord Chatfield told the house of lords he declared that four German planes participated in today's raid and that one was shot down and another probably damaged.

Air raid warnings sounded in British coastal towns, but no raids materialized there.

As Britain and Germany tallied results of the attack yesterday—first Nazi raid on British soil—Netherlands dispatches indicated British planes already have been shot down.

Villagers across the frontier from Emfien, German North sea port, said they saw a plane they believed was raiding the city.

German and French dispatches told of fighting on the western front yesterday, which allied authorities described as the most bitterly contested of the war thus far.

German forces advanced a few yards across the French frontier near Luxembourg but French military dispatches asserted the main German attack had been halted on German territory in the Saar valley.

A German communiqué said "French troops evacuated the great part of German territory hitherto had occupied in front of our fortifications and retreated to and across the border."

A French communiqué, acknowledging that advance units had fallen back, declared the withdrawal was "decided more than 15 days ago" in anticipation of a German offensive.

The French said that 15 German divisions—probably 60,000 men—had taken part in the two attacks which they asserted had been stopped by fire from the Maginot line.

Britain and Germany disputed results of the raid on the Irish coast. British communiqué said the British cruiser Southampton was damaged slightly but two other warships were said to have come through unscathed.

Germany claimed greater success in the raid, declaring "two English warships" sustained bomb hits from the heaviest caliber German losses were given as "two planes missing."

Britain asserted at least four of the German raiders—12 or 14 planes—had

Leche And 4 Others Indicted At Orleans

Three Accused Of Divert-
ing Material To Mrs.
Huey Long's Home

NEW ORLEANS, Oct. 17.—(AP)—Former Governor Richard W. Leche and his former commissioner of conservation, William G. Rankin, today were indicted by the federal grand jury here on charges of using the mails to defraud in connection with a boat presented Leche here last December as a testimonial for bringing industry to Louisiana by local business men.

George Caldwell, former construction superintendent at Louisiana State university and his assistant, Eugene Barkdale, and Edgar N. Jackson, former business manager at the university, were indicted in another action on ten charges of diversions of WPA labor and materials to private residences of Mrs. Huey P. Long, Leche and Jackson.

It was alleged they diverted 1,600 sacks of building cement to the residence of Mrs. Long, widow of the late senator. Following his death she built a beautiful home on the lakeshore bordering the university campus at the eastern edge of the city of Baton Rouge.

Diversions of 265 hours of WPA labor to this house also was alleged, valued at \$2,622.01.

Caldwell was named in two other indictments charging WPA diversions along with numerous other individuals and companies.

These involved alleged kickbacks to Caldwell, in the first of which it was said he received \$14,089.14, and that \$10,507.50 of WPA materials and labor was diverted.

Charged with Caldwell in this indictment was Archibald A. Marx, the American Heating and Plumbing

TUBERCULOSIS TAX DECISION DUE WEDNESDAY

Judge Shell Takes Matter
Under Advisement
After Hearing

The decision on the petition of four Ouachita parish taxpayers who are seeking to obtain an injunction restraining the levying, collecting or receiving of benefits from the one-half special tax for the G. B. Cooley Tuberculosis sanatorium was taken under advisement by Judge J. T. Shell after a hearing this morning in district court. Judge Shell will announce his decision at 10 a. m. tomorrow.

Exception with no cause of action and answers were filed on behalf of the three defendants, Mrs. Joe Hanna, tax assessor, Sheriff Milton Goodwin and the Ouachita Parish Tuberculosis association, Inc. Exceptions were argued and submitted. The exceptions were leveled at the proposition that the petition of the taxpayers states no cause of action.

The plaintiffs in the petition, J. L. Evans, M. F. Halley, Mrs. Tracey Goodwin and H. T. Goodwin, are asking that the tax assessor be restrained from levying the special tax voted here last February, that the sheriff be restrained from collecting the tax, and that the Ouachita Parish Tuberculosis association, Inc., be prohibited from receiving any taxes levied or collected under the special tax ordinance.

Quick Hypodermic Cure For Sprains Announced

By Howard W. Blakeslee
(Associated Press Service Writer)

PHILADELPHIA, Oct. 17.—A quick hypodermic cure for sprained ankles and knees was reported today to the American College of Surgeons.

Novocaine is injected close to the site of the sprain. It relieves the pain of moving the joint and at the same time helps injured tissues to recover quickly.

The sprained part is bandaged tightly, and instead of being ordered to rest, the patient is told to get up and walk around. Where the hypodermic treatment succeeds, the sprains apparently get well in two or three days in cases when the ankle or knee could not be used for two weeks by the ordinary, conservative treatments.

In 25 of these sprains, reported at the hospital of the University of Pennsylvania, all but two or three recovered speedily.

The new treatment is apparently useful for the large class of sprains where ligaments are not torn, but only stretched and loosened. The fact that there may be some hemorrhage about the sprain, with rainbow colors in the swelling, does not prevent the "shots" from giving speedy relief.

Surgeons who discussed this treatment said that if ligaments are torn they prefer the old rest treatment. The use of novocaine for sprains originated in France. It has been given a year's trial at the University of Pennsylvania hospital.

GALLOGLY PUTS FATE IN HANDS OF GOVERNOR

Georgia Fugitive Lays
Whole Story Before
Texas Executive

AUSTIN, Tex., Oct. 17.—(AP)—Richard Gallogly, who maintains he would die soon if returned to a Georgia prison, waited fearfully today for a decision on his extradition by a governor stoutly opposed to the death sentence.

The life-term implored Governor W. Lee O'Daniel, who sought office on a Ten Commandments platform, to give him another chance by refusing to send him back to prison.

The playboy fugitive claimed he would be put at hard labor as punishment for his sensational escape and extradition fight.

Governor O'Daniel in effect overruled a plea of Georgia attorneys to exclude certain testimony as to Gallogly's innocence, explaining he wanted to hear all evidence before reaching a decision. He allowed the hearing to stretch into vast detail, although Attorney General Ellis Arnall of Georgia contended the only legal issues were whether Gallogly was a fugitive convict and whether the extradition papers were in order.

Gallogly, who stuck a "piece of dark wood" toward two Georgia prison guards October 5 and fled across four southern states to Texas, claimed mistreatment by Georgia officials.

His attorneys claimed testimony was loaded with proof the former Oglethorpe college student had been promised a pardon if he would plead guilty to a robbery-murder for which a companion was given a death sentence, later commuted to life.

The 30-year-old man, pallid from 11 years in prison, testified he had attempted to persuade his college pal, George Harsh of Milwaukee not to enter an Atlanta drug store where Harsh was wounded and a clerk fatally shot in 1928.

In the last year, he declared, he was severely beaten by guards, has contracted what one physician believes is tuberculosis and was denied a pardon because of politics.

Arnall sought through questioning to show that Gallogly, son of a wealthy family, generally had been given considerable treatment in a dozen prison camps.

"It is not true that Georgia has abolished chain gangs," he asked.

"Yes, but they still have rubber hose and pick handles," the fugitive replied.

JONESBORO MAN IS FOUND SLAIN

Jewell Weeks Borrows
Gun; Sister Discovers
Body Later

JONESBORO, La., Oct. 17.—(Special)—Obtaining consent of his foreman at the plant of the Advance Bag and Paper company to be permitted to leave his work there to go hunting Sunday morning, Jewell Weeks, 31, borrowed an automatic shotgun from his brother-in-law, W. W. Irvine, and disappeared. His body was found by his sister, Mrs. Ruby Parker, a short time later. There was a gaping gunshot wound through the heart.

From the position in which the body was found, it is believed that the man pulled off his shoe, placed the gun against a tree and with his toe pulled the trigger of the gun, with death resulting instantly.

Members of the family could give no explanation for the man's action, when the coroner conducted an investigation into the circumstances of the case.

The funeral, which was largely attended, was held at the Jonesboro Baptist church, Monday at 2 p. m. The pastor, Rev. J. W. Buckner, officiated. Interment was in the Jonesboro cemetery. Pallbearers were Sheriff Neil Thomas, Travis Williams, Ernest Bishop, Travis Pardue, B. Fain, Joe Langley, J. H. Jordan, and Jeffie Vailles.

Mrs. Weeks is survived by his wife; his parents, Mr. and Mrs. R. L. Weeks; and the following brothers and sisters: Arthur, W. T. and Averette Weeks, Jonesboro; Mrs. Ruby Parker, Mrs. W. W. Irvine, Mrs. Bessie Maxey and Mrs. Pearl Smith, Jonesboro; Mrs. Eva Walker, Winfield and Mrs. May Hunt, Shreveport.

CHINESE SAY HEAVY BOOTS BEATING JAPS

Nipponese Unable To Use
Mechanized Forces
In Hunan

By James L. Stewart

WITH THE CHINESE ARMY AT NANYO, HUNAN PROVINCE, China, Oct. 17.—(AP)—Japanese troops, slogging up and down the rough Chinese mountains, can blame their heavy boots for recent reverses in Hunan, the defending Chinese General Chien Cheng told foreign newspaper men today.

Chinese soldiers, shod only in straw sandals, can negotiate the tricky terrain with much less effort, he said. Japanese inability to use mechanized forces and heavy modern artillery also contributed to what the Chinese reported as the repulse of a long campaign against Hunan and its capital, Changsha, Chien Cheng declared.

He professed to see in this the impossibility of Japanese conquest of China.

On a tour of the Hunan battlefields, I reached this town 60 miles south of Changsha after a long trip by plane and train.

Leaving the Chinese provisional capital at Chungking, I flew 500 miles to bomb-stricken Kweilin, in Kwangsi province. Then, in a car that bore the invasion belonged to the Lunghai railroad's famed green express, I rode to Hengyang on the Canton-Hankow railroad over rails which were salvaged last year from the abandoned Kiukiang-Nanchang line.

From there, the way led via Nanyo toward Changsha.

The rich countryside bore out Hunan's claims to great agricultural fertility. Abundant crops were being harvested along the way.

Preparations against Japanese invasion were everywhere apparent in this area, but except for the evidences of aerial bombings it appeared to have escaped the ravages of warfare.

General Chien, Chinese army political chief who is special commander of the Hunan forces, explained that it was not the strategy of the defenders to attack Japanese strongholds.

Instead, by cutting Japanese communications lines, intercepting supply convoys and bottling up the Japanese supporting forces in Tungcheng, in southernmost Hunan, the Chinese were continuously engaging the enemy near Nanchang, the Chinese hope to lay the foundation for Japanese disaster, he declared.

A Japanese desire to regain "face" and overcome home reaction to recent failures may dictate a renewed offensive on Changsha, he predicted, but he expressed the belief that Japan did not now have in China the fresh troops necessary for such a venture.

SEVERAL ANNOUNCE ON NOE'S TICKET

NEW ORLEANS, Oct. 17.—(AP)—Matthew S. Braniff, New Orleans attorney, today announced his candidacy for state senator from the 14th, 16th and 17th wards on the James O. Noe ticket. Braniff said he would run on a platform of "honesty, economy and efficiency in Louisiana government."

Joseph R. Stiehl, Jr., announced his candidacy for the state house of representatives from the sixth ward. He also will support the Noe gubernatorial candidacy, he said.

Other announcements today included: House: David M. Casey and Bernard J. Fonseca, from the 14th ward, James M. Brown, 13th ward.

Senate: Egan N. Carroll, from the first, second and fifteenth wards of Orleans parish.

All announced support of the Noe ticket.

FIVE HELD ON SEVEN COUNTS OF MAIL FRAUD

Senator From Bienville
Parish And Mayor Of
Arcadia Included

BONDS OF \$5,000 EACH
Name Of One Not Yet In
Custody Is Not Yet
Announced

LORRIS M. WIMBERLY, speaker of the Louisiana house of representatives, and five other persons, all prominent in Louisiana politics, were indicted today by the federal grand jury here on seven counts of using the mails to defraud.

Announcement of the indictments was made by O. John Rogge, assistant attorney general of the United States, at New Orleans.

The others indicted with Wimberly were his father, District Judge (State) J. Rush Wimberly, Sr.; his brother, J. Rush Wimberly, Jr.; J. S. Williams, secretary of the police jury of Bienville parish; State Senator M. E. Woodward of Bienville parish and M. L. Williams, mayor of the town of Arcadia.

Lorris M. Wimberly also is a former secretary of the state civil service commission.

The indictments, including one other which had not been made public early this afternoon because the defendant had not been arrested, returned before Judge Ben C. Dawkins in federal court, shortly before 11 o'clock this morning. District Attorney Harvey G. Fields announced that names of those indicted and other information concerning the charges would be made by Mr. Rogge in New Orleans. The grand jury was dismissed following the filing of the "scandal" indictments.

Five of those charged were immediately taken into custody and made bonds of \$5,000 each fixed by Federal Judge Ben Dawkins.

The indictments allege that Bienville parish in north Louisiana was placed in \$40,000 indebtedness for 20 years as the result of the alleged participation by five of the six defendants in an alleged \$20,000 fraud involving road machinery purchased in 1935 and 1936.

It was charged that individual members of the Bienville parish police jury purchased road machinery and tarring equipment, which was to have been liquidated and paid for out of rentals to farmers, at no obligation to the police jury.

This equipment included nine tractors, seven tarring machines, one small rotary scraper and grader, bought at a cost of \$38,667.51.

The equipment, purchased from the J. D. Adams company of Indianapolis, was not paid for as planned, however, and the indictment charges the defendants persuaded the police jurors to assume the debt by the jury and persuaded the state bond and tax board to approve payment.

The defendants then allegedly represented to the Adams company that their good offices would be necessary to collect the amount due, and the company employed J. R. Wimberly, Jr., on December 16, 1937, to collect on a 50 per cent contingency commission basis.

Wimberly promptly filed suit against the police jury for the amount, asking that a tax levee be fixed to pay the judgment. It was alleged the defendants corruptly, improperly and illegally influenced the police jury not to file an answer to the suit.

(Continued on Sixth Page)

FIELDS EXPLAINS DOCUMENT DELAY

SHREVEPORT, La., Oct. 17.—(AP)—Harvey G. Fields, federal district attorney, issued a statement here in which he said payroll records of the state moratorium commission were conveyed to the government by State Attorney David M. Ellison and attributed a delay to discussions with "some representative of the department."

Fields' statement follows: "I am satisfied with the statement referring to Attorney-General Ellison's refusal was innocently placed in the papers causing a misunderstanding, because Attorney-General Ellison and I were the two who finally brought about an amicable adjustment of the matter and it was through Mr. Ellison that the documents were conveyed to me, but the delay and refusal had come from other sources and any discussion about the matter which resulted in the holding up of the production of same was with some representative of the department, and in justice to Mr. Ellison I want to remove the impression that is left with respect to his name individually."

"The documents referred to, no part of the evidence as to any individual. Otherwise we could not have given out the information that had been produced, and were made a part of any presentation against any individual, but were largely for the use of another department."

NEW 'MYSTERY DISEASE' HITS Cripples People For Short Time But Does Not Kill Them

By Stephen J. McDonough
PITTSBURGH, Pa., Oct. 17.—(AP)—A new "mystery disease" which cripples people for a short time but does not kill them was reported today before the American Public Health association.

It is a form of dysentery, one of the diseases which held up the digging of the Panama canal and for centuries has stopped armies more effectively than bullets.

Dr. Millard Knowlton and Dr. E. E. Lamoureux of the Connecticut state department of health declared that the disease is caused by some bacteria or virus which has not yet been identified.

Treat Yourself
to the selfsame whiskey as Wilkens enjoy among ourselves! We've been distillers since 1887

fied. It is not the same as the bacillus of amebic form of dysentery, the types usually found. The latter was the form which caused the outbreak of dysentery at the Century of Progress in Chicago and later at the Chicago stockyards fire in 1934.

The great mystery of the new form is that it also is carried in water supplies, the Connecticut scientists said. Outbreaks of it usually occur where water is obtained from reservoirs which gather water from small drainage basins.

"Material washed into a reservoir of small capacity by a heavy rainfall after a spell of dry weather is apt to contain vegetable matter including germs that affect plants," they added, and thus produce dysentery.

There also may be relationship between this type of dysentery and the diarrhea epidemics in new born babies which sometimes occur in hospitals and cause many infant deaths. If the disease is found to be the same, or even similar the research on the milk-type in adults may be the stepping-stone to preventing or treating the disease in babies. Dr. Knowlton and Dr. Lamoureux said.

Persons who have the disease rarely see a doctor because they diagnose their symptoms as merely a "stomach upset" and therefore the germ or virus is probably much more common than public health authorities realize. If it is the same disease as infant diarrhea it should be tracked down as thoroughly as any epidemic of smallpox or scarlet fever, they added.

Drug addicts are signing their own death warrants with hypodermic needles which they trade around promiscuously. Dr. Harry Most of New York said. He has been able to trace the disease to outbreaks of outbreaks of infant diarrhea which were caused by the common use of the same needles.

Old nurse the disease is transmitted by mosquitoes, but sudden outbreaks of several hundred cases in New York led the scientist to investigate and find that some were not of the same type. He has been able to trace the disease to outbreaks of outbreaks of infant diarrhea which were caused by the common use of the same needles.

FRENCH REPORT GERMAN DRIVE BROKEN DOWN

Paris, Oct. 17.—(AP)—The French government today reported that the German drive into France had been broken down at the Meuse river, and that the French army was holding the Germans in a series of battles.

The United States military academy at West Point was established in 1802.

GERMANS MAKE ANOTHER RAID UPON BRITAIN

(Continued from First Page)

been shot down by the royal air force.

The raid on the Firth of Forth naval center, coupled with German submarine warfare which last week sank the battleship Royal Oak, led to the belief German was concentrating her war efforts principally against the British navy to prevent a sea blockade from strangling the Reich.

Soviet Russia, which has non-aggression and trade pacts with Germany, asserted such a blockade could not be effective because of economic aid the Reich would receive from Russia and Italy.

The Soviet press expressed in the government newspaper, Izvestia, which reflected support for Adolf Hitler's efforts to obtain peace now, that Poland was complicit.

Discussions negotiations between Russia and Turkey, part of the Soviet campaign to strengthen her position in eastern Europe while the western powers are engaged in war, came to a halt at least temporarily.

Turkey's foreign minister, Sukru Saracoglu, prepared to leave Moscow tonight after nearly a month of discussing problems concerning the Black sea and its outlet, the Dardanelles.

Some sources in Ankara, the Turkish capital, believed, however, that a truce pact would be signed soon between the two nations.

The Baltic front of Russia's diplomatic campaign was outwardly quiet following further developments after the kings of Denmark, Norway and Sweden and the president of Finland met tomorrow at Stockholm on Scandinavian problems created by Russian expansion in the Baltic and the war in western Europe.

JUROR THINKS LAWYER BYRNE EMBARRASSED

(Continued from First Page)

ship with the district attorney and his staff. It did not necessarily apply to Mr. Meyer, the witness said.

"Did you have in mind any particular associates when you included that statement in the petition?" asked Steeg, referring to a clause which stated that investigation of "associates" of the district attorney might be embarrassing to members of that office.

The name of Fabacher was brought up in part to the tax assessment reduction racket," DeArmas replied. "Fabacher" was not further identified.

Meyer, representing the district attorney's office, objected to a question of whether the witness knew how Byrne got his office and Judge Frank T. Echezal sustained the objection. Judge William J. O'Hara then turned the case over to the jury.

when Judge Frank T. Echezal interjected: "With the grand jury divided, with seven on one side and five on the other, and in view of the fact that it takes nine members to make the work of the grand jury effective, this parish is in the meantime without protection which a grand jury gives it."

"The others," replied DeArmas, "didn't deny what we wanted to do. They just didn't want to stick their necks out."

"Without questioning any members' sincerity," said Judge Echezal, "my opinion is that the grand jury is deadlocked and that the parish is virtually without a grand jury."

Judge William J. O'Hara, a member of the three-judge tribunal, interrupted. "As I understand it," he said, "on a vote as to whether an indictment is to be returned or not, that condition does not exist."

DeArmas was the only witness heard yesterday.

PITTSBURGH RATED AT TOP OF FOOTBALL TEAM

NOTRE DAME IS PLACED SECOND, OKLAHOMA 3RD

Panthers Get 709 Points Compared To 630 For Irish

By Bill Bond
NEW YORK, Oct. 17.—(AP)—Pittsburgh's Panthers, the team supposed to be de-emphasized, deflated and de-noted from top-flight national ranking this season, were given No. 1 position today in the first Associated Press college poll of the season.

Victor over Washington, Pitt again riding high in the eastern of the public and of the 102 experts who contributed their ballots to this original election. To reach the Panthers were out-paced by the Irish, who were placed in the second position, 741 to 630 points, and Oklahoma, 730 to 630 points, in the third place.

This poll, the first in the series, is a ranking of the 102 college football teams, based on the opinion of 102 college football experts.

Moore Takes Blame For Gains Around Star's End

Coach Told Kavanaugh To Guard Against Passes In Rice Game

NEW ORLEANS, Oct. 17.—(AP)—Coach Bernie Moore of Louisiana State University took full blame Monday for a comparatively poor showing by his great end Ken Kavanaugh made Saturday night in L. S. U.'s 7-0 victory over Rice.

"Kavanaugh played exactly as I told him," Moore told the Monday Quarterback club. "He went into the game knowing that he would look bad against running plays."

We were up against Ernie Lain, a great passer, and on pass plays he backed up deep so we couldn't rush him. The only thing to do was to cover the receivers closely. We found we were too man short, so I had Kavanaugh step back and cover the line. Lain failed back.

On one or two occasions Rice caught him off balance.

Asked what he would do if the team at Kavanaugh, Moore answered jokingly, "I would resign."

The L. S. U. coach paid tribute to the Rice line and especially Bassett, a tackle who he described as "the greatest tackle I have ever seen."

Moore also praised the Rice line, saying it was "the best line I have ever seen."

INDIAN LINEUP WILL INCLUDE SEVERAL SUBS

Malone Works On Backfield Combination For Henderson Game Here

New faces appeared in the North-east Center of L. S. U. line yesterday, and Coach Jim Malone is working on a new backfield combination to face the Henderson State Teachers college Reddies here Friday night at Brown field.

Injuries during the past couple of weeks have had a lot to do with the lineup changes, but several of the players boosted to the regular lineup were due for promotions anyway.

The forward wall yesterday had Buster Macon and Mickey Westbrook on the ends, Macon having taken the place of "Red" Barnes at right end. Barnes, who played center while in high school at Sheridan, Ark., has started to play at center since his birth, but Tommy Young, a local youth, was handling the pivot assignment yesterday while John Nicotia is out with a leg injury.

Harold Lawson came up from the second team to replace Hal Hanson at right tackle. Hanson, like Nicotia, came out of the Ouachita college game limping, and is taking time off to recover.

Harry "Hard Luck" Morton went to the hospital again yesterday. Morton, a halfback, joined the Indians last fall, coming here from Tallulah. He saw little service, however, having been bothered most of the season with an injury. Morton was expected to hit his stride this year, but he was hurt during fall training and has been able to play but little so far. Last week he appeared about ready to take his place with the full-time backs once more, but his game leg was hurt all over again in scrimmage yesterday.

Malone was trying a backfield combination of "Tuffy" Westerman, Robert May, Don Short and Morton when the Tallulah boys were hurt.

Another backfield combination tried with success included May, Ben Starnett, Dub Taylor and Max Hutchins. Roy Wooten and Percy Frey alternated in running with each backfield.

With Bill Singleton, stellar blocking back, still out with injuries, May is expected to figure in the backfield. He is a good blocker and that is what the coaches need in Singleton, making Short after a week on the casualty list, a stout prime for another year.

The T-besmen worked two hours yesterday and have another extensive drill set up for today. A long pass defense drill, and line and tackling will figure in today's work.

Pole and German To Meet On Wrestling Mat Tonight

Joe Banaski And Otto Ludwig Billed For Semifinal Event Here

Joe Banaski, Polish wrestler billed to meet Otto Ludwig, German, tonight in the semi-final event at the Monroe Wrestling arena, claims the light heavyweight championship of the world and in a number of states this claim is recognized by the athletic commissions.

Although his match with Ludwig is the semi-final event, it probably will be watched with fully as much interest as the main match for the reason that a Pole will be pitted against a German and the countries these two men represent recently were at war. Many who have seen Ludwig perform believe he will be fully capable of taking care of the Pole, but others who have seen pictures of Banaski, a former champion, believe he is inclined to believe he will handle the German without too much difficulty.

The program will open at 8:30 o'clock at the arena, 504 Walnut street.

together the Masked Marvel, whose identity and place of residence are unknown, and Dick Sampson of Toledo, O., former school teacher, who now takes delight in teaching his opponents some things they don't know about wrestling.

Fans will watch the Masked Marvel with unusual interest, some of them believing he is a grapple of unusual ability who is keeping his identity concealed in order to make his opponents less wary. Others will be watching to see whether he is as good as the Wrestling Shadow who performed here a number of times while masked and who is believed by some Monroe fans to be the best wrestler who has appeared here.

The Marvel will have to be good, however, or Sampson will pin his shoulders to the mat and wear a wide grin while doing it. Sampson has proved on two consecutive appearances that he is capable of doing a thing of this kind, winning the first time over "Sailor" Moran and the second time over Ludwig and wearing a smile most of the time.

The program will open at 8:30 o'clock at the arena, 504 Walnut street.

TIGERS CRIPPLED FOR WINNSBORO

Guy Miller, Quarterback, Joins Neville's Growing List Of Casualties

The Neville High school Tigers face the possibility of going against the Winsboro Wildcats here Thursday night in their worst shape of the season.

With the right side of the Bengal line already weakened by injuries, the team suffered another blow yesterday when it was reported that Guy Miller, shifty little 120-pound quarterback, would probably be missing from the lineup this week because of a pulled stomach muscle.

Miller, who has teamed with R. C. "Red" Rivers to give the Tigers a 1-1-1 ball-carrying combination, missed the rough workout yesterday and it is doubtful when he will return.

Gus Peterson, ailing regular right tackle, returned to the team yesterday but he is still bothered with a leg injury. However, he is expected to be able to play this week.

Three linemen are still inactive. "Tinker" Simpson, right end, and his understudy, Allen Meredith, and Right Guard Carlton McKelthorn, may be missing for another week. Simpson has a knee injury, Meredith suffered a hip injury last Thursday and McKelthorn has a sprained ankle.

Robert Gates, veteran Neville boxer, is going into the backfield in the absence of Miller. Rivers will move into Miller's spot and Gates will handle Rivers' former duties.

In the line, Donald Garrett is at right end and H. L. Cavanaugh is at right guard.

Coach Percy Brown said last night that a big scrimmage was due for today and that the Bengals were preparing some new plays for trial against the Wildcats.

BOLSTERS OFFENSE FOR ALABAMA GAME

KNOXVILLE, Tenn., Oct. 17.—(AP)—Apparently in an effort to strengthen his attack, Major Bob Neyland boosted Joe Wallen to fullback on his number 1 team Monday as he began preparing his Tennessee Volunteers for their first game with Alabama here Saturday.

Wallen, whose pile-driving line plunging has been outstanding in the "Vol" three "warm-up" games, replaced Leonard Coffman, who has been a fixture at fullback for the past two seasons.

A light dummy scrimmage with one-placed on pass offense and defense was held on the Vol's main Monday afternoon. Buist Warren impressed observers with his accurate tosses. George Cafego and Johnny Butler, other Vol pitchers, also hit their targets frequently.

Meanwhile, athletic association officials reported a complete sell-out for the game, indicating upwards of 20,000 will see the two Southeastern conference stalwarts collide in the nation's feature attraction.

High-Scoring Pros Give Fans Thrills

NEW YORK, Oct. 17.—(AP)—If it's scoring the football fans want, they are getting it in large doses from the games of the National Professional Football League. The players have averaged 37.5 points a game higher than last year's season scoring.

Washington, by scoring 44 points against Pittsburgh on Sunday, became the first team in league history to tally over 40 points in two consecutive games. They had scored 41 against Brooklyn the previous week.

The Chicago Bears also tallied 44 points against the Chicago Cardinals, and for the first time this season scored over 100 yards. This is a record set by Detroit in 1934 and 1936. The Bears have gained 1,841 yards, Washington 1,234 and Green Bay 1,221.

Cleveland has completed the most passes, 62 out of 125, but Washington has the highest average of completions with 32 out of 53. New York is the best defensive club in the league, having allowed opponents only 20 points, and is tied with Detroit in allowing rivals a total gain of only 87 yards.

REBELS PREP FOR GAME WITH ST. LOUIS ELEVEN

UNIVERSITY, Miss., Oct. 17.—(AP)—The University of Mississippi varsity squad had an off day as the freshmen and scrub team played St. Louis University Monday in preparation for a scrimmage Tuesday.

The team was sore and bruised after the triumph over Centenary. Coach Harry Mehre said he would stress defense and blocking this week. John Whittington, right halfback, will be in shape for St. Louis U. and Guard Bill Hazel will be shifted to tackle for the contest.

SPORTS ROUNDUP

NEW YORK, Oct. 17.—(AP)—The Detroit Tigers capped off the season with a 4-0 victory over the Philadelphia Phillies yesterday.

The Australian cricket team arrived in New York yesterday for their first game against the Yankees.

The Australian cricket team arrived in New York yesterday for their first game against the Yankees.

ALABAMA HOLDS SECRET PRACTICE FOR VOL GAME

TUSCALOOSA, Ala., Oct. 17.—(AP)—Hampered by injuries, Alabama's Crimson Tide men worked behind locked gates Monday as they opened final preparations for Saturday's game with Tennessee.

Cullen Suggs, Bill McMurray, John Hinson and Reggie watched the game from the sidelines.

Most of the afternoon was spent in dummy scrimmages against Tennessee players. Heavy work is expected to begin Tuesday but the general condition of the squad is such that no actual scrimmages have been scheduled.

THE OLD PROF'S PUPILS Explain How It Happened

Week-end Headaches Aired In 'Blue' Monday Coaches' Class

By Whitney Martin
NEW YORK, Oct. 17.—(AP)—The sun was bright and the Old Professor was almost that way as he put both hands behind his back and his best foot forward, preparatory to addressing his Monday morning class of football coaches.

Old Professor: Good morning, gentlemen. Please excuse me if I seem a little foggy. I was up late with a sick friend. No, not Mr. Crowley, although he does look a little peaked. Are you ill, Mr. Crowley?

Jim Crowley: Fordham. I felt fine. Professor, until five minutes after two last Saturday, when I had to see green spots before my eyes. Waves of them.

Old Professor: You weren't by chance playing Tulane?

Mr. Crowley: That's it, the Green Wave. Tulane had two strong teams and was just too much for us. The only difference I could see in the teams was Kellough. I believe Alabama has a better defensive team than Tulane, but the Greenies have the edge in offense.

Red Dawson, Tulane. We showed great improvement and beat a great team, but our goal line punch wasn't hot. We didn't try to keep plays away from Kuzman. We just played as if Fordham had been any other team.

Old Professor: Congratulations, Mr. Stevens. What are you dreaming about?

Mal Stevens, N. Y. U.: Fishing. I said before our game with North Carolina that it would be all right if General Sturmevers, their quarterback, would just go fishing. I haven't changed my mind. Sturmy is the chap who beat us. He's great.

Ray Wolf, North Carolina: That N. Y. U. game indicates it's taking our boys a long time to get over those 50-0 and 36-6 scores against Citadel and Wake Forest. N. Y. U.'s line out-charged us. We'll have to play better to stay in the game with Tulane.

Old Professor: Mr. Kitts, have you changed your mind? Your boy, Jimmy, Jr., warned us. I tell you, mister, my daddy won't have a statement.

Jimmy Kitts, Rice: That's right. All I'll say is that L. S. U. has a fine team.

Bernie Moore, L. S. U.: We were lucky. Fred beat us but they have to be lucky to win all these tough games. I'm just glad we won.

Old Professor: Mr. Wade, please pay attention. What are you musing about?

Wallace Wade, Duke: I was just thinking, Professor, that although we lost to Pitt, it was one of the finest games I've ever seen. Both teams played mighty hard.

Charley Bowser, Pitt: Professor, I just can't believe we won. Naturally, I'm tickled pink but I still think we were mighty lucky.

Old Professor: You heard what Mr. Moore said about luck, Mr. Layden, didn't you comb your hair? You look like you just had a good scare.

Elmer Layden, Notre Dame: Southern Methodist seems to like that stadium of ours, Professor. The Mustangs are very well-coached, a fine team. Our blocking was better, but we'll have to sustain it.

Matty Bell, S. M. U.: We had visions of a tie, but it was a fine game, although tough to lose. I hope Mr. Layden goes on through. It couldn't happen to a finer man.

Old Professor: Nobody will argue that.

WRIGLEY ASKS HARTNETT TO SUBMIT '40 PROGRAM

CHICAGO, Oct. 17.—(AP)—Phil Wrigley, owner of the Chicago Cubs, revealed Monday he had asked Manager Gabby Hartnett to submit a "program" designed to put the team back in the pennant fight in 1940.

Wrigley emphasized he had not made up his mind about Hartnett's status for next season, but simply had asked for Hartnett's ideas for rebuilding the club. The owner disclosed he and the manager had a conference last Friday.

THE TOBACCO THAT SMOKED SO COOL IN TESTS SHOWED ME THE WAY TO MILD YET RICH, FULL-BODIED 'MAKIN'S' CIGARETTES. P.A. SURE IS THE JOY SMOKE!

Cotton higher; price fixing and Wall Street buying. Sugar lower; profit-taking and hedging. Metals steady; imported silver off. Wool tops firm. Trade and Bretton buying.

CHICAGO—Wheat higher; war news. Corn higher. Cattle steady to 25 lower. Hogs steady to 10 higher; top 7.50

NEW YORK STOCKS

By Victor Eubank

NEW YORK Oct. 17.—(P)—War buying again made its appearance in the stock market today, with steel, aircraft, rail and specialties favored.

After a slow start, bidding picked up apparently. Gains at the best ranged from 1 to more than 3 points. Subsequent profit taking reduced prices in most categories and volume lightened near the fourth hour.

German air raids on Scotland and the British Scapa Flow naval base, were cited as factors in the English war stock advance. The thought to Wall Street that a real war may be just getting under way. Speculative forces consequently stepped in and boosted stocks of companies which might benefit from foreign orders.

Most foreign markets did better and commodities displayed rising tendencies. United States government securities exhibited strength and corporate bonds met relatively demand.

Prominent shares on the upward were United States Steel, Bethlehem, United States Rubber, Douglas Aircraft, Boeing, Sperry, United Fruit, Santa Fe, Southern Railway, Chesapeake and Ohio American Smelting, Western Union, Bell Telephone, American Can, John Hancock and Standard Oil of New Jersey.

Stimulating were forecasts regarding the major steel concerns in the third quarter, which were the best for the year to date.

Motors managed to keep in the plus column, despite the fact that the Chrysler Motor share was down.

Butter And Eggs

Will Be Candidates For Queen At Game With State Normal

'MIRACLES FOR SALE'

Young and Florence R. Young, 'Miracles for Sale,' pass W. Young, Jr. at the Paramount theater.

MANY CHILDREN IN NEED OF CLOTHING

A surprisingly large number of underprivileged children in Ouachita parish are right now in dire need of warm clothing for fall, stated L. G. Hughes, of the department of public welfare, Tuesday.

He asked that people who have warm, unused and unneeded clothing for children bring them to the welfare office, third floor of the old Central Savings Bank building that they will be performing a public service.

Many are in many cases destroyed, and those that are put away in dark closets. This clothing for children is needed to keep them warm from suffering in the cold weather of fall and winter. Even so, we hear of the parents who are unable to buy new clothes for their children.

Mr. Hughes who said that it seems that the need for warm clothing is more urgent than ever.

Any person who brings clothing to the office of Mr. Hughes will be given a receipt and the clothing will be given to the greatest need.

GARLAND SHELL IS TO HAVE AUDITION

Garland Shell, talented baritone, will have an audition at the office of the Ouachita parish public welfare department, Tuesday, October 18, at 10 o'clock.

Mr. Shell, who is a native of New York, has been singing in the choir of the St. John's Episcopal church in New York city. He has also been singing in the choir of the St. John's Episcopal church in New Orleans.
